

DON'T WORRY; It Makes Wrinkles.

Worry over ill-health does your health no good, and merely causes wrinkles, that make you look older than you are.

If you are sick, don't worry, but go about it to make yourself well. To do this we repeat the words of thousands of other sufferers from womanly ills, similar to yours, when we say,

Take Viburn-O.

It is a wonderful female remedy, as you will admit if you use it. Directions for its use are printed in six languages with every bottle. Price \$1.25 at druggists.

"Bignity Is What We Use To Conceal Our Ignorance"

is Albert Hubbard's definition of the word dignity.

Unquestionably Albert is correct, and every thinking person will agree with him.

Think of the people with dignity and count those having it naturally. He who has it naturally, combined with ability, is a great success in life. Those with assumed dignity are—well, they are understood and discounted by the public.

We've no dignity, natural or assumed, and if it's not to be attempted by us, the public would discount it. Let the public estimate us correctly; give us credit for a thorough knowledge of the photograph business; for doing work at reasonable prices. Years of experience in this business exclusively entitles us to.

DENTISTRY

Teeth without a Plate

In the greatest boom of modern times, what you could understand the difference between having teeth with a plate and teeth without a plate. One is comfortable and lasts a lifetime; the other covers the roof of your mouth, destroys the best part of the taste. One never falls down; the other often does.

Where it is necessary to wear a plate, DR. SYDNEY WILL make you one that will fit.

MORE CRITICISM FOR PRESIDENT

Resolution Introduced in Senate Relative to Absorption of Tennessee Coal and Iron Co. by U. S. Steel Co.

Washington, Jan. 7.—Characterizing the action of the president in directing the attorney general not to prosecute the United States Steel corporation for its absorption of the Tennessee Coal and Iron company as "another arbitrary and lawless act of the chief magistrate," Senator Cullerton of Texas introduced a resolution in the senate today to permit such absorption. The resolution provides that the attorney general be directed to report at an early date as to whether the president was justified in his action in directing the attorney general not to prosecute the United States Steel corporation for its absorption of the Tennessee Coal and Iron company.

REAL AUTOCRAT OF THE ROAD.

Commodore Vanderbilt Sole Ruler of His Railway Lines.

Commodore Vanderbilt, at the age of 80, was the greatest railroad autocrat this country has known. Nowadays railroad ownership is a complicated affair; Vanderbilt made it a one-man affair.

He amassed his properties, spent many millions in their reconstruction, and manipulated their securities with absolute independence of all minority stockholders. That the public had any legitimate concern with his railroads would have struck the commodore as absurd. Once upon the witness stand, he repeatedly replied: "None of your business," to a regularly authorized inquirer who was attempting to get certain first-hand information concerning the Central's affairs. Before he obtained control of the Central its official reports were fairly complete; afterward they did not furnish the most rudimentary information. He had the utmost contempt for the law and its representatives. "Law?" he once roared, "what do I care about the law? Haint I got the power?" Once observing that a Central director had not voted for a certain proposition which had been under consideration he asked the reason why. "Don't you know, commodore," his friend replied, "that such and every one of those transactions is absolutely forbidden by the statutes of the state of New York?" "My God! John," said Vanderbilt, "you don't suppose you can run a railroad in accordance with the statutes of the state of New York, do you?"—Burton J. Hendrick, in McClure's.

Just Like a Man.
"Queer thing about the laughter of the average man," remarked the woman who observes things.
"What's queer about him?" asked the sweet girl graduate.
"Nearly every time he laughs it is at something he has said himself," replied the feminine observer.

The Cambridge experimental farm has been an investigation of the inheritance of horns and face color in sheep.

BEAUTIFUL CROWN PRINCESS MARIE OF ROUMANIA,
Who Has Caused a Sensation by Ousting a Diplomat.

The sudden withdrawal of the German minister, Baron von Kiderlen-Wachter, from the court of Roumania is a distinct triumph for Crown Princess Marie, the beautiful daughter of the late Duke of Edinburgh and the mother of the handsome royal children in Europe. Baron Kiderlen had the indiscretion to install at the embassy a housekeeper who assumed the dignity of "Lady Representative of the Legation." Her presence and presumption in exacting social recognition from the wives of the secretaries and attaches resulted in the resignation of Baron von Kiderlen, a brother of the former German secretary of embassy in Washington, and a great favorite at the Roumanian court. Then other members of the legation resigned, and the king decided to make an end of the scandal. At the next reception his majesty inquired casually of the French minister, "How is it that most of your German colleagues, the secretaries and attaches, remain with us so short a time only?" The explanation of the services, smiled the diplomat: "Yes, yes," said King Charles. "I understand service at the German legation has its exigencies." On an incident of the king's remark, and under the circumstances concluded that his resignation was in order.

REARVIEW RACE TRACK TO BE SOLD

Failure of New England Trotting Horse Breeders' Association to Pay Its Indebtedness Cause of Sale.

Boston, Jan. 7.—The Readville track, on which Star Pointer first broke the two minute mark by pacing the mile in 1:59 1-4, ten years ago last fall, will be sold, in accordance with the action of its owners, the New England Trotting Horse Breeders' association. It is possible that a special committee having charge of the sale may be able to make such arrangements as to insure a grand circuit meeting next summer by leasing the track from the new owners, and perhaps continue the sport for four or five years. But the property itself, through the failure of the association to raise \$100,000 needed to pay its indebtedness, will soon pass into other hands.

A committee consisting of Col. John E. Thayer, the president, and C. W. Leselle of Whitmanville, has been asked to take charge of the sale and secure, if possible, the lease of the property for the next five years at an annual rental of \$5,000. The committee will report next month.

DANIELSON.

(Continued from Page Nine.)
have sufficient fire protection, and also be at no additional expense.

The clause in the proposed contract which states that the rates to private consumers shall not be increased has been left out of the proposed contract. And it is probable that a utilities commission will be named by the legislature at the session this winter who will have control of the water companies of the state, and in case our rates are deemed too high an appeal to the commission can be made and a proper adjustment may be ordered. In this connection it is proper to state that this community is not only blessed with an abundance of good water when so many of the towns in the state, during the past season, have suffered from want of water, or have had to take their water from rivers and other polluted streams, but also our hydrant and consumers' rates compare favorably with the rates in other towns throughout the state.

Consumers' Rates.
Of the twelve or fifteen companies with which Mr. Wheeler, treasurer of the Crystal Water company, is connected, our hydrant rentals are the lowest, and are to the consumers' rates we annex a table showing the rates of all the water companies in the state, both private and municipal. A few of them, most of which have a population exceeding our own, are: Danielson, family, 1 faucet \$6 each, additional faucet \$2; Putnam, 2 family \$8, 2 families \$10; Williamstown, family \$8, each additional person \$5; Jewett City, family \$8, each additional person \$3; Stoughton, 1 faucet \$6 each, additional person \$5; Stoughton, 1 family \$6, two families \$10.

Claim Compromised.
An agreement was also reached with the Crystal Water company relative to the claim of \$180 for hydrant service in 1908 which the borough refused to pay, claiming the reservoir was empty for a period of time, and that the water company was thereby violating the terms of the contract. This claim, amounting with interest to August 1, 1908, to \$203.51, was compromised by our committee offering to settle for the original amount without interest, namely \$180. The committee thought it better for the borough to pay this amount rather than to have any litigation, and thus maintain the amicable relations existing between the borough and the Crystal Water company.

Fourteen Municipal Plants.
As regards a municipal water supply for the borough, your committee have not had sufficient time to look into the matter very thoroughly. There is no doubt in our minds that if the borough had, twenty years ago, put in its own water plant, we should today be enjoying a fair profit from the investment, but as to the benefits to be derived from the purchase of the present works, after twenty years' service, your committee would leave that matter an open question. Out of the forty-two water works in the state, fourteen only are municipal plants. Such cities as New Haven, Bridgeport, Putnam, Rockville, Bristol, Naugatuck and Torrington are supplied by private corporations. Harry E. Back, commissioner of the bureau of labor statistics, in his report of December, 1908, says "that the water protection is profitable is shown by the fact that of the twelve municipal plants eleven municipalities secure their water without cost and make a handsome profit out of the private users, although large sums have been charged off in estimated depreciations. The twenty-two private plants also, with one exception, show profits."

It is fair to conclude that in municipally owned plants, those towns, cities and boroughs make a profit from the private users and secure the water for public use without cost, while in privately owned plants, on the whole, municipalities have to pay as much for their water as private users."

In conclusion we recommend:
First—That the borough make a ten year contract with the Crystal Water company for hydrant service following the form of contract submitted.
Second—That the borough rescind its vote of April 13, 1902, and pay the Crystal Water company \$180 in full settlement of their claim.
Third—That the matter of a municipal water supply continue to be agitated and the committee investigated before the borough committee itself.

PERSONS TALKED ABOUT.

Crawford Howell Toy, since 1880 Haverhill professor of Hebrew and Oriental languages at Harvard university, has sent his resignation to the faculty, to take effect September 1, 1909.

Mrs. Zella Nuttall is now in Mexico as field director of the Reid-Crocker expedition, which is excavating the Pyramids of the Sun and Moon. The work is being carried on with funds furnished by Mrs. Whitelaw Reid and Mrs. Crocker of San Francisco.

After winning distinction in Drake university by graduating at the head of a law class of 38, Mrs. Helen G. Talbot of Sioux City is now in Des Moines taking post-graduate work and preparing a book on real estate law that will be in manuscript form by next June.

Methodists in the United States and Canada will erect a memorial monument to Barbara Heck, the founder of Methodism in America. The monument is to be erected on the Canadian bank of the St. Lawrence river, close to the spot where the body of the founder is buried.

An Indiana music teacher, Miss Isabel Melcher, is beginning a campaign for the teaching of national airs in the schools. The victory of children are woefully ignorant on the subject, she says, and some of the teachers cannot tell "Star Spangled Banner" from "Yankee Doodle."

William Johnson, who had been a prominent resident of Dunkirk for 50 years, died in that place at the age of 84 years. He was born in Brighton, England, in 1824. His father, Robert Johnson, was an officer in the British army and fought at the battle of Trafalgar.

Dr. Alice Boole Campbell, for 40 years a practicing physician in Brooklyn, died of angina pectoris, after an illness

Always Remove Rubber Shields.
"I have learned one lesson," said a careful woman, "and that is not to leave my dress shields in waists. I took out a delicate silk waist the other day which I have not worn for two months, only to find that the rubber shields had effected some sort of chemical action on the silk; the result was that it was just as trail as could be; in fact, it literally tore in my hand."

"I have for some time taken the precaution of removing shields before packing away a waist, but it had never occurred to me to go further than that. I have, however, taken a day off and have sewed short pieces of baby ribbon onto the arm sizes of all my waists, and corresponding pieces on the shields. Now I am fortified against any injury to my dress waists, for I shall undo the shields whenever the waist is taken out."

Comfort More Than Salary.
A man who happens to know that a stenographer who is earning hardly more than seven dollars a week is worth a great deal more than that to business men who require painstaking service, was wondering the other evening why she did not try to advance. From the girl's relatives it was learned that she lacks ambition, and that her salary, with some extra money she earns in outside work, is more than enough for her wants. More than that, she likes her employer and his methods of work and does not care to change.

A Clubwoman's Troubles.
One of the annoyances of the clubwoman's life lies in the tickets that are pressed upon her and from which there seems to be no escape. It is not unusual for the president of a prominent organization to find from 50 to 500 of these "invitations" in her daily mail, each inciting from one to a dozen tickets, which she is expected to either purchase herself or dispose of among friends. What is the victim to do? She cannot ignore the matter—there have been cases where the sender attempted to enforce payment for tickets not returned. "It is serious enough," says one of these grievously offended ones, "to be bombarded at noon and tea, but when one has to sort over dozens and dozens before getting to one's personal notes, it is too much."

Tuesday, Jr.'s Mistake.
Six months in Connecticut and only a "major"? If Theodore, Jr., had spent that much time in Georgia he would have been a complimentary major for general—Atlanta Constitution.

A Restless Soul.
We regret to hear of Sol Dixon's death. Sol was a restless soul. It will pull off some sort of an advertising stunt, no matter where it went.—Oklahoma Oklahoman.

Of three wires of the same size, made respectively of gold, copper and iron, the first will sustain a weight of 150 pounds, the second 302 and the third 549.

Ceresota Flour

sales outstrip the records of brands old enough to be its great grandfather, because extraordinary merit is found in every bag. You need only the first sack to tell you why.

'T WILL HELP YOU

Woman's Relief

Dr. Krugers Viburn-O-Gin Compound, the woman's remedy, has been known for years as "Woman's Relief" since it has positively proven its great value in the treatment of womanly diseases.

It will help you, if you are a sufferer from any of the ills peculiar to women, which can be reached by medicine. It has helped thousands of other sick women, as grateful letters from them clearly describe. It contains no poisonous drugs.

For nervousness, irritability, headache, backache, pressing-down pains, and other symptoms of general female weakness, this compound has been found quick and safe.

"I think Viburn-O-Gin is the best remedy for weak women. It does me more good than any medicine I have ever taken. I cannot praise it strong enough. I think it is the best woman's medicine on earth."

You'll feel like writing a similar letter if you try it.

\$1.25 a bottle with directions.
